

Fort Steuben Scout Reservation Hiking Trails

Clendening Trail - White Blazes

Marked with white blazes, it is the easiest trail to hike. Beginning at the handicraft pavilion, the Clendening Trail leads hikers on level to fairly level, well cleared, ground following an old road to the ruins of the Clendening house and farm where the trail terminates. The trail is close to 0.8 km (0.5 mi) and takes about 20-30 minutes to hike one way.

Lakefront/Fishing Trail - Yellow Blazes

This trail begins at the handicraft pavilion and ends at the bottom Waterfront trail. This trail is about 0.6 km (0.4 mi) long and takes about 30 minutes to hike. The yellow blazes lead down an old road and along the lakeshore offering good fishing spots. The trail covers moderately hilly terrain and is obstructed in places by large fallen trees, due to last fall's logging operation, making this a rather difficult trail to hike.

Morgan's Trail - Green Blazes

Beginning at Koval Road below the council ring, this trail traverses level to moderately hill terrain. The Blue trail follows this trail for the majority of its length. This trail, as with all Morgan's Trails, ends at Morgan's Cave. This trail is approximately 0.5 km (0.3 mi) long. Expect 15-25 minutes to hike.

Morgan's Trail - Blue Blazes

The blue trail begins on Koval Road with the other two Morgan's Trails and ends at Morgan's Cave. After following the green trail for some time, the blue trail branches off to the Adams Road entrance to the cave. The trail then circles behind the cave and terminates down inside the cave. This trail covers the same terrain and is the same length as the green trail and takes 25 minutes to hike.

Morgan's Trail - Orange Blazes

Begins below the council ring, on Koval Road, and ends at Morgan's Cave. This is the most difficult of the three Morgan's Trails. This trail offers scenic overlooks as it passes several rock out-croppings on its way to the cave. The trail traverses very hilly terrain and crosses several small streams and trees. Although only 0.5 km (0.3 mi) long, plan on a full 45-50 minutes to hike this trail.

Oak Trail - Red Blazes

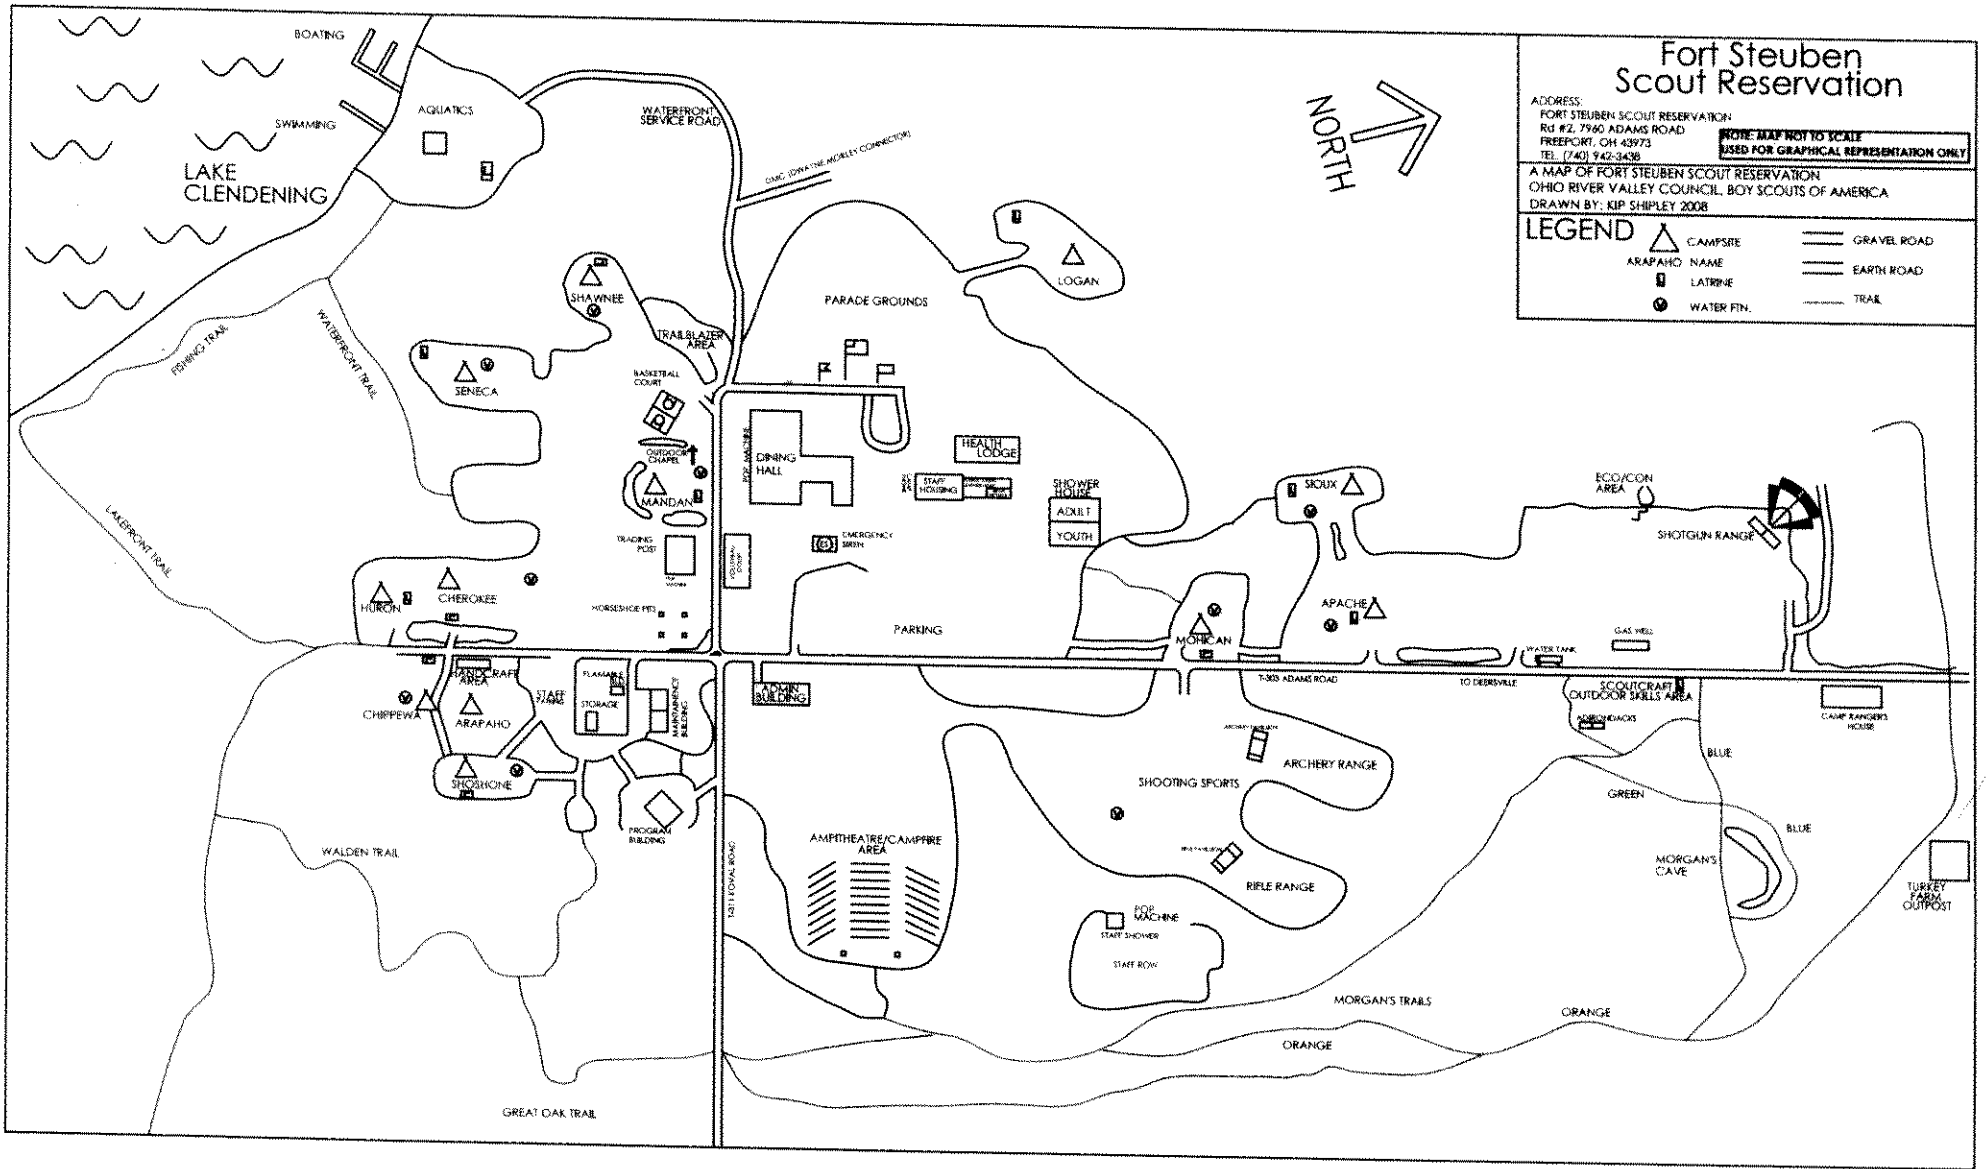

This trail begins at the Shoshone Campsite and runs along Walden Trail for a while. The red blazes lead past several huge oak trees. Currently the trail ends at Koval Road. Future plans include extending the trail to Morgan's Cave and beyond. The trail traverses fair to moderately level, is about 0.3 km (0.2 mi) long. Plan on 15-20 minutes hiking time.

Walden Trail - Light Green Blazes

Walden Trail is Fort Steuben's Nature Trail. This trail begins at the pavilion and ends at the bottom of Cherokee Campsite. Walden Trail contains numbered posts, which point out interesting nature facts. An explanatory guide is available at the Econ-Con pavilion. Walden trail traverses fair to moderate grade cleared of obstacles. The trail uses light green blazes and is about 0.3 km (0.1 mi) long and takes around 10 minutes to walk.

Waterfront Trail - No Blazes

The Waterfront Trail is probably the most used trail at Fort Steuben. The aquatics program area uses this trail daily. This trail is cleared of obstacles and is hilly. The Waterfront Trail connects with the Lake Fishing Trail near the aquatics area. The trail is only about .02 km (0.1 mi) long and takes around 10 minutes to walk.
